

THE AirdyneX

PERFORMANCE REDESIGNED

AirDyneX

Building on the Airdyne's long heritage of innovation and performance, the AirdyneX boasts Octane's trademark durability, with heavy-duty construction and a moisture-repellent frame.

OCTANE ADVANTAGES

- 26-blade performance fan
- Inertia performance drive system
- Single-stage belt for instant activation
- Class A watts rating
- Smooth motion
- HIIT workouts
- Calibration technology

UPPER-BODY

MultiGrip handlebars let exercisers target different muscles and add variety. Stationary foot pegs enables exercisers isolate the upper body.

MAXIMUM RESULTS

Total-body workouts increase users' ROI. Exercisers are the motor on the AirdyneX bike, so they determine the intensity and resistance levels.

EFFICIENT BELT DRIVE

The single-stage belt drive responds immediately to users' efforts, and provides smooth, quiet motion that no chain drive can deliver.

CUSTOMIZED COMFORT

Precisely designed for extra comfort, the AirdyneX bike has multiple adjustment options to accommodate different size users.

AIRDYNE X SPECIFICATIONS

• Standard ○ Optional

KEY MECHANICAL FEATURES

MultiGrip™ handlebars	•
Performance fan	26 blades
Weighted inertia ring	•
Drive system	Single-stage belt drive
Ball bearings at pivot points	•
Solid steel cranks	•
Stabilizer feet/levers	•
Foot pegs	•
Replaceable pedals	•
Multi-position seat	•
Replaceable seat	•
Water bottle holder	•
Transport wheels	•
Air diverter	○

ELECTRONIC FEATURES

LCD tachometer display	•
Resistance levels	Progressive wind resistance
Wireless heart rate ready (Polar®)	•
Quick Start	•
Quick program keys	•
Self-powered	•
Watts calibration (adjusts to elevation)	•
Class A watts rating	•
Power supply	○

WORKOUTS

Number of programs	9
--------------------	---

PRESET RESISTANCE PROGRAMS

Manual	•
20/10 Interval	•
30/90 Interval	•
Custom Interval	•
Time Target	•
Calorie Target	•
Kilojoules Target	•
Miles Target	•
Kilometers Target	•

PRODUCT SPECIFICATIONS

Max user weight	160 Kg (350 lbs)
Footprint (W x L x H)	66 cm x 140 cm x 135 cm (26" x 55" x 53")
Footprint - live area (W x L x H)	66 cm x 140 cm x 135 cm (26" x 55" x 53")
Product weight	51 Kg (113 lbs)

WARRANTY - FULL COMMERCIAL

Frame	10 years
Parts	3 years

Warranty outside the US and Canada may vary.

INHERENT SUPERIORITY

When it comes to performance, the AirdyneX bike beats the competition. That's because other bikes use small fans that cannot optimize performance. The AirdyneX bike is equipped with a top-of-the-line 26-blade performance fan that helps ensure that the power generated creates valuable resistance, to get the ultimate in efficient, effective workouts. And thanks to an exclusive inertia drive, users enjoy smooth motion and safe, quick transitions from sprints to stops.

CONSOLE

The addictive tachometer visually signals how hard exercisers are working and shows the average calorie burn per minute – making it an excellent motivator for them to bury the needle! The calibration technology produces accurate and consistent results from bike to bike, making it ideal for challenges and competitions.

Plus, the digital display simultaneously provides essential stats -- heart rate, RPM, distance, watts and total calories.

BURN MORE CALORIES

Exercisers burn more calories on the AirdyneX compared to a leading competitor fan bike at the same RPM*. The custom designed performance fan enables them to generate more watt power efficiently. That means greater motivation and results.

*Engineering internal study versus a leading competitor fan bike at the same RPM. Individual results will vary.
